Linkedin *: Surya Annadurai*
Portfolio*: My Portfolio*
Leetcode*: Leetcode*

Certifications | Internships

Geekster | Geekster Full Stack Web Development Bootcamp
- **Solved 400+ DSA/Coding questions** on geekster's **Hackerrank** platform and **Leetcode**.
- Participated in various **Coding contests** organised by the platform.
- Secured **1st rank** in Geekster's Coding Challenge and recognized as a **top performer** in Geekster's HackerRank problem-solving assessments.
- Worked on various projects like **Sun Estates (MERN), Codepen AI , Google Drive Clone , Expense Tracker App.**
- Technical Stack Learned : **ReactJs, NodeJs, MongoDB, Firebase, ExpressJs, Javascript, Java, Tailwind, Redux Toolkit, HTML, CSS, Framer Motion, GSAP**

Projects

Sun Estates – Full Stack(MERN) Real Estate Web App *(Github Link)* *(Deployed Link)*
- Built a responsive real estate web app with JWT authentication, property browsing and filtering, interactive maps using Leaflet, and real-time updates via Firebase. Features a modern UI with smooth animations and persistent state management using Redux Toolkit.
- **Key Features:** JWT-based authentication, Property browsing, filtering & simulated purchase, Interactive maps (Leaflet), Real-time updates (Firebase), Responsive UI with animations, State management with Redux Toolkit
- **Tech Stack: React.js, Redux Toolkit, Tailwind CSS,** Swiper.js**, Leaflet, Node.js, Express.js, MongoDB, JWT, Firebase**

Codepen AI *(Github Link)* *(Deployed Link)*
- Built an advanced coding playground for frontend developers with **AI-powered template generation**, **code suggestions**, **debugging**, and **project documentation**.
- **Key Features:** Secure **Firebase Auth** (Email, Google, GitHub), HTML/CSS/JS editor with CodeMirror, live preview, **adjustable panels**, Firestore project management, and smooth UI transitions using Framer Motion.
- Tech Stack: **ReactJs, Redux Toolkit, Tailwind CSS, Firebase, Framer motion, Gemini API**.

Google Drive Clone *(Github Link)* *(Deployed Link)*
- Developed a responsive cloud storage app with Google Drive-like features—file CRUD operations, real-time updates via Firebase, and secure Google Authentication.
- **Key Features:** Integrated **Google Notes**, **MyTasks**, **Calendar**, and **Gemini AI** for smart suggestions. Built with a modern, mobile-friendly UI using React.js, Tailwind, Modular CSS, and managed with Redux Toolkit.
- Tech Stack:**ReactJs, Redux Toolkit, Tailwind CSS, Modular CSS, Firebase, Gemini API**.

Skills

- **Computer Language** : **Java, Javascript,Typescript**
- **Frameworks / Libraries** : **ReactJS**, Redux, **Tailwind, NodeJs, MongoDB, ExpressJs**, REST-API**,** Framer motion, GSAP
- **Additional Courses** : Data Structure and Algorithms(**DSA**)
- **Tools & Technologies** : GIT, GitHub, VS code, Postman, HTML, CSS, SCSS

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2023	BBA	Bharathiar University	65.4%
2017	12th	Mercy Matric Hr.sec School	79.8%
2014	10th	Mercy Matric Hr.sec School	96.6%
